

The Bread Scorer

Where Professional Bakers Score

- Stainless Steel Shaving Quality Blade: Complies with French regulations on stainless steel products intended for contact with food.
- Light Weight : 8 Grams total weight, with 2.5" long blade
- Stainless Steel shaving quality razor blade secured in a ABS plastic folding handle. Making it more durable and safer for use.
- Blade is twice the thickness of a standard razor blade (0.009") so it will not break and end up in the dough.
- Recommended by the NY State food safety inspectors
- Currently in use in many bakeries as a safe alternative to the standard Lame.
- Lowest cost—Highest quality bread score available.
